

Daycare tuition reminder texts

TuitionPing · Free provider resource · Updated October 6, 2026

Before sending

Replace every placeholder. Check your balance and payment records first. Use the family's preferred language, keep messages private, send with permission, and respect opt-outs. These are standalone templates; configure your account separately.

Before the due date

Send before tuition is due. Replace each placeholder and use the family's preferred language.

English: Hi {Parent}, tuition of \${Amount} for {Program} is due {Date}. Please pay using {PaymentMethod}. Thank you!

Español: Hola {Parent}, la cuota de \${Amount} de {Program} vence el {Date}. Pague mediante {PaymentMethod}. ¡Gracias!

Due today

Send only if your records still show the bill as unpaid.

English: Hi {Parent}, tuition of \${Amount} for {Program} is due today ({Date}). Payment details: {PaymentMethod}. Thank you!

Español: Hola {Parent}, la cuota de \${Amount} de {Program} vence hoy ({Date}). Cómo pagar: {PaymentMethod}. ¡Gracias!

Gentle overdue reminder

Check your payment records before sending. Ask about discrepancies privately.

English: Hi {Parent}, our records show \${Balance} outstanding for {Program}, due {Date}. Please pay using {PaymentMethod}, or contact us if you have already paid.

Español: Hola {Parent}, nuestros registros muestran un saldo de \${Balance} de {Program}, con vencimiento el {Date}. Pague mediante {PaymentMethod} o contáctenos si ya pagó.

Firm overdue follow-up

Use only a deadline and next step already supported by your written policy. This does not assess a new fee.

English: Hi {Parent}, \${Balance} for {Program} remains overdue, including \${AssessedFee} in fees already assessed under our policy. Please pay by {Deadline} or contact {Contact} to discuss next steps.

Español: Hola {Parent}, el saldo de \${Balance} de {Program} sigue vencido e incluye \${AssessedFee} en recargos ya aplicados según nuestra política. Pague antes del {Deadline} o contacte a {Contact}.

Parent reported PAID — not yet verified

Acknowledge a report without issuing a receipt or claiming that money arrived. In TuitionPing, keep PAID as the reply keyword in either language.

English: Thanks {Parent}. Your payment is reported. {Program} will check its records and follow up if anything is missing.

Español: Gracias {Parent}. Hemos registrado su aviso de pago. {Program} revisará sus registros y le avisará si falta algo.

Payment received — provider verified

Send only after you have verified the amount and billing period against your payment records. This is a manual provider template, not a bank confirmation from TuitionPing.

English: Thanks {Parent}. We have verified receipt of \${Amount} for {Period} at {Program}. Remaining balance: \${Balance}.

Español: Gracias {Parent}. Hemos confirmado la recepción de \${Amount} de {Period} en {Program}. Saldo pendiente: \${Balance}.

Using PAID with TuitionPing

PAID is the reply keyword in either language. A reply is parent-reported, not bank verification. The provider-verified receipt template is manual and should only be sent after checking the actual payment.
